

TravelGlobe

Your Travel Memories on a Living Globe

Transform your travel experiences into an interactive journey. See all your travels on a beautiful 3D globe. Share memories, connect with friends, and explore the world.

THE PROBLEM

Travel photos are scattered across devices.

Hard to visualize where you've been

No easy way to share travel stories

Lost memories in forgotten folders

No connection between destinations

THE SOLUTION

TravelGlobe is a revolutionary mobile app

TravelGlobe is a revolutionary mobile app that maps your travel photos to a beautiful 3D interactive globe. Automatically organizes photos by location using GPS data. Creates visual timelines of your trips. Connects you with friends to share travel experiences. Tracks your travel statistics including countries visited, trips taken, and distance traveled.

KEY FEATURES

Everything you need to preserve your journey

3D Interactive Globe

Beautiful Earth visualization with photo pins. Click pins to see photos and location details. Smooth rotation and zoom controls. Real-time location tracking.

Smart Photo Management

Automatic GPS extraction from photos. Camera folder integration. Batch upload support. Timeline view by date.

Social Network

Share trips with friends. Follow other travelers. Comments and likes. Public and private controls.

Travel Analytics

Countries visited counter. Distance traveled calculator. Photos per location. Trip statistics dashboard.

Premium Features

- AI trip summaries
- Advanced analytics
- Private albums
- HD uploads
- Offline access
- Stories and Reels
- Gamification
